Welcome to Swank K-12 Streaming

The Swank K-12 Streaming library provides access to over 30,000 movies, documentaries and foreign language films for instructional support.

You now have access to a curated collection of top, educational films which are click-and-play ready in your streaming library.

You can also request that films be added. These requests will be approved by your school's Swank Administrator, if available:

Swank K-12 Streaming School Administrator: Jodi Crawford crawfordj@link75.org

If you have any questions or challenges with the streaming platform, please contact your Swank Streaming Admin and they will assist as needed.

Streaming Portal URL: https://digitalcampus.swankmp.net/MAHS376687

This website URL should be bookmarked as it is your access point to the streaming library moving forward. (Please note, this website URL should not be shared with students.)

Setting up Your K-12 Streaming Account:
The Teacher/Staff Member Portal

Step 1

Click on the MTA specific URL provided:
https://digitalcampus.swankmp.net/MAHS376687

Step 2

Enter the following passcode when prompted: 7E2AD626
This passcode is unique for teachers at your school and should not be shared with others.
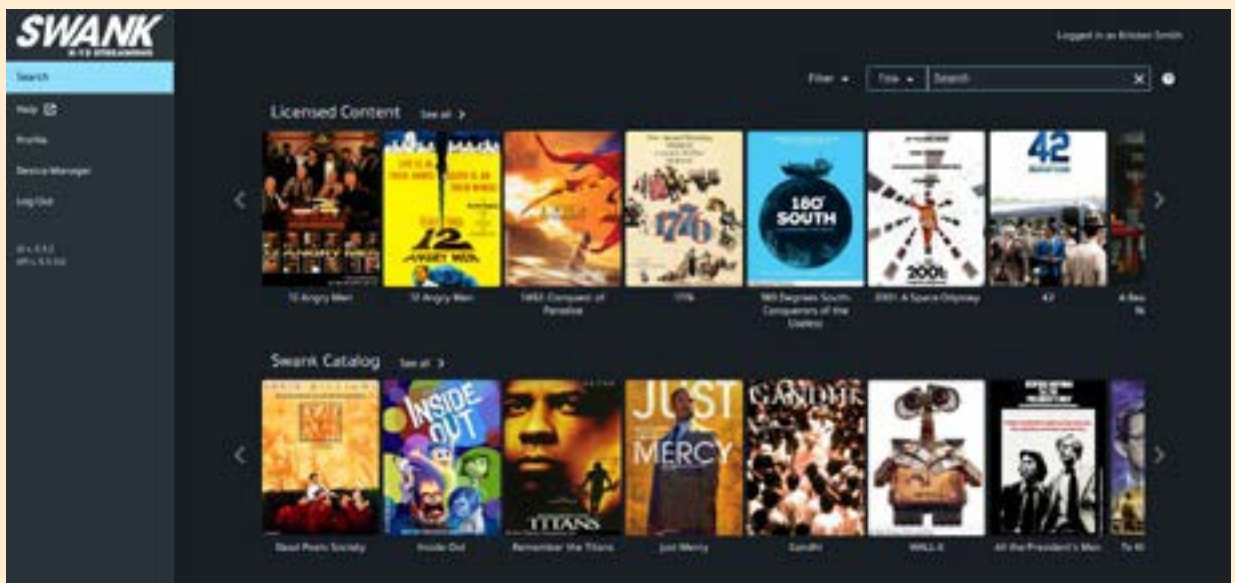

Step 3

Create your account profile, including name, school email address, username and password. Please use your school/district provided email address as your login is based on your district email domain. If you are getting an invalid email error when setting up your account, either you are not using your district email or not all district emails have been allowed for in your streaming platform. If you think you are receiving this message in error, please contact the individual who provided you with this document to update your portal's email domains.

Step 4

Verify your email address by clicking the verification link found in your inbox. If this email is not in your inbox after setting up your account, please check your spam or junk folder

Step 5

Once verified you should be immediately taken to the Swank K-12 Streaming library of films. If you are not immediately taken to the Swank streaming library, click on the URL provided and you should be able to log in.

Assigning Movies to Students:

Learn how to assign and enable films to students for viewing outside of class.

Step 1

Identify the movie you want to assign to students.

Step 2

Ensure the movie is already available in your streaming library for viewing. When clicking a movie, if you see "Watch" and "Share" buttons, the film is available.
If you see a "Request" button, you will need to request access and wait for approval from your Swank Administrator prior to assigning the film.

Step 3

Click "Share" on the movie page and select the Direct Link.

Direct Link: Direct Links are the full URL to the film, which enable access via any sharing option, such as email, course syllabus, and Learning Management Systems like Google Classroom.
**DO NOT USE LMS Link as it will not work with Google CLassroom**

Step 4

Paste the link into whatever platform you intend to share with students and include the generic student username and password listed above for their log in.

Teacher login information should never be shared with students as you have different permissions than they do.

Helpful Resources:

To ensure you and your teachers have all of the information necessary to watch and assign films, a resource page is included below that includes short how-to videos on various portal functionality, and a teacher and admin guide with step-by-step instructions for navigating the streaming portal.
